CURTAILMENT OF PAPER
FORCED ON PUBLISHERS

REDUCTION IN SIZE OF ISSUE
SAID TO BE IMPERATIVE.

WASTE IS TO BE ELIMINATED

NEW YORK, August 8.—Newspapers of the United States today are confronted by such a scarcity of news print paper that curtailment of its use in every way possible has been forced on them.

Unless economies are effected by the newspapers a famine in paper required by them will result in a few months, according to the publishers of the nation's newspapers, who declare that the only way a crisis can be averted will be through the husbanding of their resources by the newspapers themselves, particularly by those of New York.

Thus means a concerted stoppage of waste of news print paper by a reduction in the size of newspapers, by the refusing of unsold papers and by cutting off the exchanges materially.

If this action is not taken the manufacturers will be forced to supply paper on allotment, limited by their inadequate production and their rapidly diminishing supplies.

Have Agreed to Limit Size.

To meet the emergency the publishers in Manhattan have agreed to limit the size of the papers and to limit dealers' supplies strictly to sales.

Fifty mills in the United States and Canada are working three shifts of men eight hours each daily six days a week, yet their production so far falls short of the requirements that the surplus stock is being reduced at the rate of 5,000 tons a month.

At the end of June, the last month for which figures were compiled, there were only 65,194 tons of news print paper in the storerooms, while at the same time last year there were 92,967 tons.

It is impossible for the mills to increase their production. Their output in June was 140,133 tons, which is 35.4 per cent. of their capacity, and an increase of 7,000 tons a month over the production of June, 1915. Yet even this tremendous increase is insufficient to meet the demand.

For several months this demand has been eating heavily into the surplus stock. The fact that the minimum is in sight was what caused the newspaper publishers to reach an agreement this week for the curtailment of all waste and to curb the tendency to increase the size of the papers at this time of year.

In the fall, as a rule, circulation increases and advertising as well. The fall increase in the use of news print paper would wipe out the total production and the reserve stock but for the action just taken by the publishers.

Mills Can Not Save Situation.

Although at the time it seemed a risk, the paper manufacturers began to increase their facilities when the demand began to increase noticeably, even though they feared the increase merely was temporary, due to the war.

Since last June the mills of this country and Canada have had facilities added to them for a 15 per cent. increase of print paper production. Most of the new machinery now is in operation.

One difficulty lies in the inability of manufacturers to have machinery supplied on short notice. It is estimated that it takes a year and a half to get a mill in operation. In a few weeks new machines that can turn out fifty tons a day will be in operation but at the present rate of consumption these can not save the situation.

DEMOCRATIC CAMPAIGN
TO BEGIN AFTER SEPT.

WILSON MAY BE NOTIFIED BEFORE CONGRESS ADJOURNS.

M'CORMICK AT WHITE HOUSE

WASHINGTON, August 8.—At a White House conference yesterday it was decided to open the Democratic national campaign soon after September 1, regardless of whether the congress still is in session then. Vance C. McCormick, chairman of the Democratic national committee, and Homer S. Cummings, the committee's vice-chairman, took lunch with the President, and remained with him for four hours, following which they left for the campaign.

While no date was set for the notification of the congress, McCormick said that if the congress remained in session after September 1, the notification might take place before adjournment. Under such circumstances, the notification would be made by the President, for the occasion, immediately afterward to Washington.

Many Invitations to Speak.

Invitations sent to the President to speak in various parts of the country were considered at the conference. Mr. Wilson will make no definite engagements, however, until a date for the adjournment of the congress is agreed on. He already has promised to go to Louisville, Ky., September 4, to speak at Lincoln memorial exercises, and has made tentative engagements to visit St. Louis September 19, 20 or 21, to address an organization of dentists, and to make a nonpolitical campaign.

Chairman McCormick said he planned to have the Democratic campaign in full swing by September 15. Mr. Cummings, who is chairman of the speakers' bureau at Democratic headquarters, told the President of the progress made in assigning speakers to the various states.

It was definitely determined that the President would not speak in Maine, where the election comes September 11, but he probably will write letters and in other parts of the state. Mr. Cummings said, probably can not take part in the Maine campaign, but will make many speeches later.

Personnel Announced Soon.

An active campaign will be carried on by the Democrats in more states this year than ever before. No states will be conceded to the Republicans, they declared. The Democratic organizations in Republican strongholds are being strengthened with the idea of putting up a fight all along the line.

Formation of the Democratic campaign committee has been almost completed. Mr. McCormick announced, and its personnel will be announced within a few days. Plans for winning the women voters will be pushed actively, according to Mr. McCormick in a note to the announcement of Charles E. Hughes, the Republican nominee, in the favor of a federal suffrage amendment. A women's bureau at the New York headquarters will be organized in the near future.

History of Indianapolis in Centennial Souvenir

An Indiana centennial souvenir, giving the outline history of Indianapolis and sixty drawings and photographs of past and present Indianapolis scenes, has been issued by Max R. Hyman. This will be the official souvenir of the Marion county day centennial committee, under the auspices of which the souvenir will be sold and distributed.

The souvenir is a handy booklet that can be mailed easily in large quantities and is designed particularly for the use of Indianapolis business men for sending to friends and customers. The booklet is printed on tinted paper and contains a large amount of historic and descriptive material.

The face of the cover is a drawing of the "Capitol in the Woods," as it appeared in 1820, and on the back is a quotation from the poem, "Indiana," written by Isaac H. Julian.

WILL LEAVE WAY OPEN
FOR POLISH FOOD PLAN

GREAT BRITAIN TO TAKE UP
QUESTION AGAIN.

WILL ANSWER GERMAN NOTE

LONDON, August 8.—The foreign office will send a memorandum to Walter Hines Page, the American ambassador, which will leave the way open for a resumption of the negotiations for feeding the civilian populations of the German-occupied areas, the conditions for which are laid down by Great Britain were recently rejected by Germany. The memorandum will suggest that the British government can reopen the question if it regards such a step as advisable and useful.

Predicts Good Harvest.

Germany's reply rejecting the British offer, which has already been published in the United States, and Great Britain's reply thereto, will be made public here within a few days. The British reply will answer the contentions of Germany that the British proposals were too long delayed, and that owing to favorable crop prospects, relief action could apparently be dispensed with until the next harvest would provide for the needs of the people, with the proviso that the next harvest would be delayed, and that reports in the possession of the British government refute the latter contention.

The British reply, which leaves a resumption of the negotiations to the judgment of the United States, doubtless will be received with grateful surprise in Poland, where the British proposals stated that a rejection of them would end the negotiations.

Aid for Noncombatants.

Discussing this phase of the situation, an official of the foreign office told the Associated Press that the offer to resume the negotiations would be made in good faith, but that no assurance could be given that the British proposals could be made again on the former basis since the government had been informed that the harvests in the occupied areas.

The British official said that the policy of the British foreign office was to give encouragement to some plan under which a neutral territory outside the zone of hostilities, or civilians in the occupied areas as a precedent which would make a distinct aid to the noncombatant populations.

U. S. OFFICIALS NOT HOPEFUL.

Believe British Stipulations Will Prevent Agreement.

WASHINGTON, August 8.—While officials here take advantage of any new avenue opened by Great Britain for negotiations of an agreement under which relief supplies may be sent to Poland and other territories occupied by the Teutonic armies, they entertain little hope that the forthcoming foreign office communication will permit material progress in that direction.

In its last memorandum on the subject Germany declared Great Britain had insisted on guarantees manifestly out of the question and added that further negotiations would be "devoid of purpose." It is believed unlikely here that the British government will withdraw the stipulations which have been a stumbling block from the start and which have been described officially as the last word of the foreign office on the subject.

The London note regarding the new memorandum, however, aroused considerable interest here. It was said the United States added the further stipulation of both sides, still stood ready to take any possible step that might lead to an agreement.

Lutheran Synod Not to Be Changed.

FT. WAYNE, Ind., August 8.—A committee recommendation that the Central District of Missouri Lutheran synod be made into three separate divisions was defeated by five votes at the district convention yesterday afternoon, the ballot standing 102 to 57. The next convention will be held at Laporte.

Municipal Control of Milk
Routes Proposed in London

LONDON, August 8.—The house of commons' war committee on prices is preparing a report on the milk supply of London and will recommend municipal control of distribution in a manner similar to the present postal deliveries, according to the Daily News, which says: "It has been found that the present sporadic distribution by the various milk companies involves a tremendous amount of overlapping, irregularity, waste and the employment of useless labor. The organization of this distribution by a central authority would result in great saving and benefit. Distribution on postal lines would mean several deliveries daily."

MISSIONARY PROGRAM GIVEN

Alvin W. Roper, Noted Pianist, Feature of Battle Ground Meeting.

(Special to The Indianapolis News)
LAFAYETTE, Ind., August 8.—Sacred music played by Alvin W. Roper, the noted pianist, was a feature today of the foreign missionary program at the Battle Ground camp meeting. He also will play for the Layman's day program tomorrow. Mr. Roper has just returned from a trip around the world.

Dr. L. S. Buckles had charge of the foreign missionary program in the northwest Indiana M. E. conference was represented, long Dr. Conrad Kipp, of India, gave an illustrated talk on missionary work there, and Miss Julia Kipp, another missionary from India, spoke on "The Caste System." Dr. L. R. Hough, of Evansville, Ind., in an address to the men of the hour, said that great leaders, called men of the hour, do not spring up but are produced, and meet crises only through divine inspiration.

The Layman's day program will produce one of the largest assemblages of Methodist laymen ever held in Indiana. It is to be distinctly a men's day. J. W. Gardner has charge of the program, which includes addresses by W. H. Anderson, head of the New York State Anti-Saloon League; E. M. Muncie, of Brazil; Marvin Campbell, of South Bend; the Rev. C. M. McConnell, of Lakeville, O.; W. E. Carpenter, of Brazil; W. S. Kepner, of Lafayette, and L. N. Hines, of Crawfordsville.

2 WARSAW BOYS AT OXFORD

Sons of Men, Both Former County Auditors, Have Rhodes Scholarships.

(Special to The Indianapolis News)
WARSAW, Ind., August 8.—Warsaw has the honor of having two Cecil Rhodes scholarship students. They are Seymour Sharp, son of E. F. Sharp, former Kosciusko county auditor, and Horace Wilcox, son of M. A. Wilcox, also a former county auditor. E. F. Sharp was deputy auditor when Mr. Wilcox was auditor and later was elected to the office. Both families recently moved to Sheridan, Wyo.
